

AKHIL GAJULA

Middletown, DE | 302-867-9314 | gajula.akhil13@gmail.com | github.com/Akr0G

EDUCATION

MOT Charter High School

Expected June 2027

Computer Science | Weighted GPA: 4.3

Relevant coursework: AP Computer Science A, AP Computer Science Principles, AP Calculus AB/BC, AP Physics C, AP Chemistry, AP Biology,

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, C++, HTML, CSS

Tools: React, Next.js, Playwright, Lighthouse, axe-core, Gemini API, PDF.js, PROS, Framer, Figma, TypeScript

Methods: full-stack development, browser automation, accessibility auditing, responsive design, DOM parsing, feedback control

TECHNICAL PROJECTS & ENGINEERING

UXBench | Creator & Full-Stack Developer [GitHub repository](#)

Sep 2026 - Present

- Built a Next.js/TypeScript audit platform using Lighthouse, Playwright, and axe-core to test performance, accessibility, responsive behavior, and technical UX signals.
- Added multi-viewport site comparisons with WCAG 2.2-mapped findings, repeated Lighthouse runs, issue deduplication, and evidence reports.

Our Daily Bread MOT | Developer [Service map](#)

Jun 2025 - Jan 2026

- Built a Google Forms/Sheets data pipeline and interactive service map to collect, clean, and visualize outreach coverage across schools, government offices, and community organizations.
- Created reporting workflows used by staff, board members, and county officials to analyze service gaps and plan outreach.

NECS26 | Lead UX Designer [Project website](#)

Sep 2025 - May 2026

- Designed and helped implement a responsive Framer/React site and mobile prototype from Figma using reusable components, responsive breakpoints, and accessible interaction patterns.
- Refined navigation, information hierarchy, and interaction flows from JPMorgan Chase developer feedback; team placed 4th nationally in BPA UX Design.

AI-Powered Website Summarizer [GitHub repository](#)

Mar 2025 - Jun 2025

- Built a Chrome extension connecting the Gemini API to DOM text extraction, heuristic filtering, and PDF.js parsing to summarize webpages and PDFs.
- Added client-side API-key validation and masking, persistent widget state, structured error handling, ARIA semantics, and keyboard navigation.

VEX Robotics | Lead Programmer, Team 19709A

Sep 2024 - Present

- Programmed C++ autonomous routines in PROS for a six-wheel drivetrain using encoder feedback and proportional control for repeatable movement and scoring sequences.
- Tuned distance conversion, braking behavior, and control gains through iterative testing; team qualified for regionals twice.

OutreachFlow | Creator & Full-Stack Developer [GitHub repository](#)

Jun 2026 - Present

- Built a full-stack outreach management platform with Next.js and TypeScript to organize leads, campaigns, and personalized outreach workflows.
- Integrated Supabase, OpenAI API, Gmail, authentication, and review-before-send controls to generate and manage fact-based email outreach.

LEADERSHIP

Business Professionals of America | Chapter President

Jun 2025 - Present

- Lead chapter meetings and competition preparation for 150+ members; helped increase state conference competitors from approximately 20 to more than 50.

AWARDS

BPA UX Design Team (SL): 1st, States (Feb 2025, Feb 2026); 7th, Nationals (May 2025); 4th, Nationals (May 2026).

BPA Website Design, Team (ML): 1st, Nationals (Apr 2023). 2nd, States (Feb 2023).

UPenn BMES: 3rd place, Smart Microbiome Filter research project (2026).

VEX Robotics: Design Award.
